You are scheduled for an appointment on _____ at
_____ AM / PM. Your appointment is scheduled with Dr. _____ at
our _____ location.

If you arrive more than 15 minutes late you will be rescheduled. 24 hour prior notice to cancel or reschedule to avoid a \$75.00 no show fee.

What you MUST bring to your appointment to avoid being rescheduled:

- This packet with ALL forms completed and signed
 - Patient and Billing Information
 - Medical History
 - Patient Acknowledgement Forms
 - Financial Policy Forms
- **ALL** of your current insurance cards **AND** photo ID
- Payment for out of pocket expenses
- **ALL** of your current medications, including any eye drops
- Eyeglasses

What to expect on your FIRST visit

Check In: If you arrive more than 15 minutes late you will be rescheduled.

Your completed forms will be collected and placed inside your file. We will scan your insurance card(s) and photo ID and collect your co-pay and/or payment for service. **If you do not come with ALL of the required information and completed paperwork your appointment may be rescheduled.**

Waiting Time: Our goal is for our clinic to run on time, however, high demand and daily medical emergencies can result in delays. Generally, a comprehensive eye exam with dilation requires approximately two (2) hours. If you have urgent time restrictions, please let our staff know upon your arrival.

Initial Evaluation by Ophthalmic Technician: Depending upon the reason for your visit and your medical history you may undergo various tests before you see the doctor. One of these tests is called a refraction. A refraction is performed to determine if you need a prescription for glasses and/or contact lenses. **Please note that a refraction is NOT covered by Medicare and most insurance plans. Our office fee for a refraction is \$40.00 and is due at the time service is rendered.** Once in the exam room, the ophthalmic technician will review your medical history and check your eye pressure. Other tests may be performed based on your primary complaint and past medical history. The technician will use eye drops to dilate your pupils. **Dilation is necessary to completely examine your eyes,** especially the retina. Then you will be moved to our dilation waiting area while the drops take effect.

Ophthalmologist's Exam: When your pupils are fully dilated, your eyes will be thoroughly examined by the doctor. Depending on the nature of your problem, we may perform additional tests on the day of your initial examination and, in some cases, treatment may be initiated. Please do not hesitate to ask any questions about the results of your examination or the treatment recommended by the physician. Your diagnosis and all possible treatment will be completely explained to you.

Because you will have temporarily blurred vision at near and in bright light after dilation, we **strongly recommend that someone drive for you after the examination.** Your pupils and vision will return to normal over the next 24 hours.

Check Out: Our receptionist will review your encounter slip and advise you of any balance due for the services you received. We file all major insurance claims including Medicare and Medicaid, and accept cash, check, major credit cards, and Care Credit. You will be asked to provide payment for co-pays, deductibles, and un-insured services such as the refraction fee and driver's forms. Please review our financial policy for further details.

Thank you for choosing Cape Fear Eye Associates, P.A. for your eye care needs. We are committed to serving your eye health, so please let us know if we can improve our service in any way.

Financial Policy

Insurance Participation

We have contracts with, file claims to and accept a contractual write-off for the following insurance companies: Aetna, Alliance PPO, BCBS, CIGNA, First Health, Health Care Savings, Humana Gold Choice, Med Cost, Medicaid, Medicare, PHCS, Southcare PPO, State Health Plan, Tricare, Wellpath, and United Healthcare.

Third Party Payers

We will file your regular medical insurance if we participate and bill you according to insurance company instructions. We will file to a Workman's Compensation policy but **REQUIRE** the following information be provided at the time of the initial treatment: Workman's Compensation company name, claims mailing address, adjuster name, adjuster phone number and claim number.

Eligibility Information

We will ask for your insurance card(s) at each appointment. If you do not have your current insurance card(s) and necessary information, you will be required to pay for the services rendered and file your claim independently to receive reimbursement.

Claims Filing

We will file claims for those insurances with which we are contracted, as well as secondary insurance if we participate with your primary insurance. We accept the contractual write-off based on your primary insurance. Once we have received instruction from your insurance company, you will receive a bill for any outstanding balance. You will then be responsible for that balance. **If we are unable to file your claim because of incorrect insurance, patient demographic, or guarantor information and you do not provide the correct information timely, then we will not file the claim for the service, but will treat the visit as a self-pay visit and you will be responsible for 100% of the visit costs.**

Payment

We accept Checks, Cash, Visa/MC and Debit cards. All payments for service are due on the day the service is provided.

Care Credit

We accept Care Credit as a form of payment for services rendered. We are required to follow the Care Credit Operating Guidelines which stipulate: the card holder must be present with the card, must provide 2 forms of valid ID and cannot be used on balances older than 90 days.

Co-Pays

Many plans require that a patient pay a co-pay at each visit. We are bound by our contracts with insurance companies to collect that co-pay at the time we render our services. In keeping with our contracts, we will collect your co-pay when you check in.

Co-Insurance and Deductibles

To avoid collection issues and increased billing, we will collect any percentage co-insurance or deductibles not met at the time of service. These amounts are calculated based on our negotiated fee schedule with the insurance company.

Appointments and No-Shows

We ask that all patients arrive 15 minutes early for their appointment. We understand the unexpected that may cause a patient to arrive late and we will accommodate your arrival time as best we can. However, if you arrive 15 minutes beyond your appointment time it will be rescheduled. **The following fees apply to no-show visits:** \$75 for missed appointments. \$100 for a missed in-office procedure and/or surgery. We require a 24 hour advance notice of cancellation so that we may offer that appointment to another patient. After 3 no-show appointments within a 12 month period you will be discharged from our practice and will be required to seek medical care from another practice.

Patient Refunds

Refunds for overpaid services are issued by the 30th of each month. Any over-payment made by the patient will be applied to any outstanding balance. If there is a remaining credit after outstanding balance is satisfied, it will be refunded to the patient, at the patient's request.

Small Balances

You will not receive bills for balances less than \$5. However, we will notify you of the balance at your next visit and expect payment.

Returned Checks

We charge a \$25 fee for returned checks. Patients who have written a returned check will be required to pay by cash or credit for all future payments.

Bankruptcy

Accounts written off due to bankruptcy will also result in termination from our practice. However, you may work with your Bankruptcy attorney to draft a letter expressing your intent to pay our bill and continue as a patient.

Charge for Medical Records

Medical records requested will be copied for the following fee: .75¢ per page 1-25, .50¢ per page 26-100, .25¢ all others. Postage is also charged.

By signing below I agree that I have read the above financial agreement. I understand and agree to adhere to the policies included within the agreement.

E-PRESCRIBING CONSENT FORM

ePrescribing is defined as a physician's ability to electronically send an accurate, error free, and understandable prescription directly to a pharmacy from the point of care. Congress has determined that the ability to electronically send prescriptions is an important element in improving the quality of patient care. ePrescribing greatly reduces medication error and enhances patient safety. The Medicare Modernization Act (MMA) of 2003 listed standards that have to be included in an ePrescribe program. These include:

- **Formulary and benefit transactions**-Gives the prescriber information about which drugs are covered by the drug benefit plan.
- **Medication history transactions**-Provides the physician with information about medications the patient is already taking to minimize the number of adverse drug events.
- **Fill status notification**-Allows the prescriber to receive an electronic notice from the pharmacy telling them if the patient's prescription has been picked up, not picked up, or partially filled.

By signing this consent form you are agreeing that Cape Fear Eye Associates can request and use your prescription medication history from other healthcare providers and/or third party pharmacy benefit payers for treatment purposes.

Understanding all of the above, I hereby provide informed consent to Cape Fear Eye Associates to enroll me in the ePrescribe Program. I have had the chance to ask questions and all of my questions have been answered to my satisfaction.

Comprehensive Eye Care Services

The following are brief descriptions of our medical and surgical services. More detailed descriptions can be found on our website at www.capefeareye.com.

Comprehensive Eye exams: Eye exams at regular intervals as determined by your doctor are important in preserving your optimal eye health. This exam includes a full assessment of your refractive state and ocular health using the latest in automated equipment and diagnostic techniques.

Cataract Surgery: Cataracts are the most common cause of loss of vision in the world and their treatment is a major service of our practice. Surgery to remove cataracts is a safe, efficient and generally painless outpatient procedure.

Glaucoma & Ocular Hypertension: Glaucoma is another leading cause of blindness in the world, but it typically presents without any symptoms. With careful evaluation to determine your risk for glaucoma, a specific treatment plan is prescribed to preserve vision. Extensive testing involves an accurate measurement of intraocular pressure, **Automated Visual Field Analysis, Digital Fundus Photography, Nerve Fiber Analysis (NFA), and Corneal Pachymetry**. Treatments may include eye drops, laser treatment and/or surgery.

Diabetic Eye Disease: Diabetic Retinopathy is the number one cause of loss of vision in Americans under the age of 60. An annual dilated eye examination is necessary for all diabetics to discover and treat any early signs of the disease. Early detection is key to preserving vision. Detailed testing to look for signs of diabetic retinopathy may include **Digital Fundus Photography, Fluorescein Angiography, and Nerve Fiber Analysis (NFA)**. Treatment includes optimum blood sugar control, **Laser Photocoagulation** and surgery.

Age-Related Macular Degeneration (AMD): AMD is a major cause of visual disability in the aging population. Although the dry form of AMD is much more common, the wet form accounts for the greatest proportion of severe vision loss. Early detection by dilated eye examination may allow vision-saving treatment to be initiated, including pediatric and infant eye exams.

Eyelid Surgery: Many minor surgical procedures can be performed in our facility including removal of benign and cancerous skin lesions as well as reconstructive eyelid surgery. Cosmetic and functional eyelid surgery is also performed on site to improve the appearance of baggy and wrinkled eyelids, and to lift droopy lids.

Lacrimal Surgery: Adults and children can develop excessive tearing due to blocked tear drainage ducts. In children this is usually present at birth and may require probing to open the blocked duct. More extensive surgery is required in adults, but this can still be performed on an outpatient basis.

Laser Refractive Surgery (LASIK, LASEK, and PRK): We offer cutting-edge vision correction for nearsightedness, farsightedness and astigmatism. Call today to schedule a refractive consultation and see if you are a candidate for LASIK and learn more about your LASIK options.
